9.0 TIE BREAKING PROCEDURE:

Games cannot end in a tie – score. All provincial playoff games are to be played in completion as per the general baseball rules for ending a game.

1. In the event of extra innings during round robin play, the following format borrowed from the IBAF will be used:

If the game remains tied after the completion of 7 innings, the following procedures will be implemented during extra innings:

- Each team will begin the 8th inning (and any subsequent necessary extra innings) with a player on first and second, no outs.
- To begin the 8th inning, representatives from each team will meet at home plate and will indicate (at the same time) to the home plate umpire where the team wishes to begin the batting order. That is, the teams have the option of beginning the 8th inning anywhere in the existing batting order that was in effect when the 7th inning ended. Note that this is not a new lineup (just potentially a different order), and it may very well be the same lineup that ended the game. The rationale for doing so is to ensure that both teams have an equal chance at having what they consider to be their best hitters and base runners in a position to score in the 8th inning.
- For example, if the team decides to have the #1 hitter in the lineup hit first, then the #8 hitter will be placed at 2B and the #9 hitter will be placed at 1B. Furthermore, if the team decides to have the #3 hitter in the lineup hit first, then the #1 hitter would be at 2B and the #2 hitter would be at 1B.
- Once those players/runners are determined for the 8th inning, the order of any subsequent innings will be determined by how the previous inning ended. That is, if the 8th inning ends with the #6 hitter having the last official at bat, then the 9th inning begins the #7 hitter at bat, and the #5 hitter at 2B and the #6 hitter at first base.
- With the exception of beginning the inning with runners on 1B and 2B with no one out, all other “Official Rules of Baseball” and will remain in effect during extra innings required to determine a winner.
- No player re-entry is permitted during extra innings.
- The traditional system of the visiting team hitting in the top of the inning and the home team hitting in the bottom of the inning will remain in effect until a winner is determined.

This tie breaking procedure will only be used in “round robin play”

2. When two teams have identical won/loss records after playing the round robin, the order of the finish is determined by reverting to the game previously played between the two teams.

3. When three teams have identical won/loss records after playing the round robin, if one team has defeated the other two teams, that team will get the higher standing.
4. When three or more teams have identical won/loss records after playing the round robin (and #2 above does not apply) runs allowed with a ratio of the innings in a defensive position will be used to determine placing. Only those games between the tied teams are to be used in determining this ratio. This is to declare the team of highest/lowest standing amongst these teams.
5. After one team is declared the winner/loser and two teams remain tied, revert to the game between the two tied teams.
6. If a tie still exists following #3 above, runs scored with a ratio of the offensive innings played will be used to determine placing. Only those games between the tied teams are to be used in determining this ratio.
7. If a tie still remains after #5 above, revert to #3 above and use all games between all teams.

Exception

In a three-way tie for first place only, one team will be awarded first place using the formula. The second and third teams involved in the tie will playoff a playoff game with the winner to advance to the championship round with the first place team.

1. **Tie breaking example for number 3 : When 3 teams are tied and one team has not defeated the other two.**

Team A - 11 vs Team B - 1

Mercy rule game in 4 ½ innings with 1 away

Team A has 5 defensive innings. Team B has 4 1/3 defensive innings.

Team C - 9 vs Team A - 8

Team C won in bottom of 7th inning with 2 away.

Team C has 7 defensive innings. Team A has 6 2/3 defensive innings.

Team B - 15 vs Team C - 13

Team B won after a full 7 innings of play. Both teams have 7 defensive innings.

	Team A	Team B	Team C
Runs against:	10	24	23
# of defensive innings	11.6	11.3	14
Formula used	10 divided by 11.6	24 divided by 11.3	23 divided by 14
Ratio	0.86	2.12	1.64

Team A is declared first with lowest ratio. The two remaining teams will play the tie breaker game to determine 2nd and 3rd place in the pool
