# INTRODUCTION

---

Since its launch in 2009, the Saskatchewan Media Directory has striven to provide the most complete and reliable listing of media outlets across the province. As we present the 2026 edition, that mission remains unchanged, but the environment in which it operates continues to evolve. Media relations is still one of the most effective ways to tell your story, and having accurate, up-to-date media contacts is essential. Yet the landscape itself is shifting faster than ever, with newsrooms restructuring, roles changing, and new platforms emerging.

This year's directory reflects those realities. Traditional media outlets continue to play a vital role in informing the public, and connecting with journalists remains a cornerstone of successful communication. At the same time, a growing number of Saskatchewan influencers now shape conversations, build communities, and reach audiences in ways that complement conventional media. Their voices on Instagram, YouTube, TikTok, podcasts, and beyond offer organizations new avenues to share messages, spark engagement, and expand reach.

To support this broader communications environment, our team has once again undertaken a thorough review of newspapers, magazines, newsletters, broadcast outlets, and digital platforms across the province. We have also updated and expanded our influencer listings to reflect the increasing importance of creators who are trusted by their followers and active in local conversations. This directory is designed to save you time, reduce uncertainty, and ensure you can connect with the right people quickly and confidently.

Whether you are pitching a story, planning a campaign, or seeking new ways to reach targeted audiences, this year's edition provides a comprehensive snapshot of Saskatchewan's communication channels: traditional, digital, and everything in between. The media directory will equip you with the tools you need to share your message effectively.

We invite you to explore the updated listings, discover new opportunities, and make the most of the diverse voices shaping Saskatchewan's media landscape today.

# ABOUT BENCHMARK PUBLIC RELATIONS

---

Benchmark Public Relations is one of the premier public relations firms on the prairies. We are a full service agency offering all aspects of communication and

marketing services. We began as a single person operation in 1992 and have since grown to encompass more than a dozen staff and consultants situated in offices across western Canada. No company can match our expertise in being able to reach targeted audiences in Saskatchewan.

We've grown our business organically over the years. Our seasoned consultants are knowledgeable and experienced in all areas of strategic communications and marketing. We pride ourselves in working hard to get to know the unique business needs of each client. The ability to offer customized and personalized service is what sets us apart from our competitors.

Developing a communications strategy, planning a special event, doing media relations for about a new program or service or launching a social media campaign or developing a website? Our senior strategists, writers and designers will work with you on all your communications and marketing needs. Our clients

enjoy access to a full-range of custom, in-house analytical tools and research methods to move in a strategic direction.

Time and money are precious. Don't put your communications needs in the hands of freelance writers juggling too many projects to be effective or advertising agencies that do public relations and communications as a side-line of their core business. Trust the experts at Benchmark Public Relations. Contact us today for a quote.
